

Local Intelligence.

TUESDAY

The Democrats are in "the last ditch," with a dam at each end, and the President turning on water.

The Peck mill has started up on Silver Prince ore for a short run, after which quite a quantity of Black Warrior ore will be put through.

The United States Marshal has received instructions from the Attorney General that the appropriated funds must only be applied for the trial of prisoners now in jail.

Some idea of the size of the State of Texas may be gathered from the fact that though the population is a million, there are only four people to every square mile of territory.

We are indebted to Hon. J. G. Baine, of Maine, for a pamphlet copy of his masterly speech, made in the U. S. Senate, Monday, April 14, 1879, on the "False issue raised by the Democratic party."

MILITARY.—A general court martial is appointed to meet at Fort Grant, at 10 a. m., Tuesday, July 8th.

Acting Assistant Surgeon S. B. Stone, is ordered to Fort Yuma to await orders from General Wilcox, and to conduct recruits to the 6th Cavalry.

THE WHEATLAND HORROR IS STILL A MYSTERY.—The crazy Canadian, one being questioned about knowing anything about it and was released. Both the girls are able to sit up and eat, but nothing is made public as to their recollection of the terrible event. Ida Dunn was to be removed to her father's house in Wheatland on Friday last.

Rev. Dr. Isaac Kallioch, of the Metropolitan Temple, San Francisco, has been nominated by the so-called Workingmen for Mayor of that city. In the fitness of things, the Rev. Dr. is regarded as a workman, because he never has, nor never will, work a lick in his life. He lives by his wits off of the people, as a majority of the leaders of the party styling themselves the "poor man's friends" get their living.

FIRST STEAM REDUCTION WORKS IN PRESCOTT.—Frank Schultz, the irrepressible, has at length, succeeded in inaugurating an establishment for the reduction of gold ores in Prescott. His mill consists of rastras driven by steam power at Brown Bros. Foundry on McCormick Street. He is rubbing up a lot of ore from the E. F. mine, situated near Thumb Butte. We hope, and everybody hopes that Frank's venture may lead on to fortune.

WEDNESDAY

If you want a good drink of beer call at the Excelsior Brewery.

All United States Civil Suits will be put over till fall term, as the funds appropriated for this fiscal year are exhausted.

The California stage has contracted the disagreeable habit of arriving later in the day than was its usual wont.

Mr. Drake, the man who bored the first oil well in Pennsylvania gets around begging, and people consider him an old bore.

If you haven't a clean shirt go over to the store on the East side of the plaza and tell them I sent you.—Generous.

Maj. James Ellis, brother to N. Ellis of Prescott, is expected from California this week. Mr. E. may conclude to stay in Arizona. Plenty of room for such men in this section.

Ed. O. Grant, Tom Hodge and Mr. Treadwell, of Wickburg, arrived to-day per private conveyance. Just what their business is or how long they intend to remain with us we are unable to say.

At Bray's, a full assortment of Summer Underwear in Gauze, Light Merinos and Jeans from 40c up; also a full line of White and Fancy Shirts, Fancy, British and Balmoral 1/2 Hose.

A large team belonging to the estate of Hank Bledsoe, deceased arrived to-day from Maricopa with 24,000 lbs of merchandise for various firms in Prescott which is to-day the liveliest place in Arizona.

Joe Lawrence, an Ash Creek miner, has returned from the Hill and Freeman expedition. He reports that he left the main party and went in a north-westerly direction into the mountains and found mineral samples of which he has with him that look like argentiferous galena.

ROAD BLOCK OUT.—Jake Hinko who arrived this morning from Alexandria, informs us that the logs that form the lower side of the grade on the road between Palace Station and Turkey Creek have burst out by fire caught from the burning woods until the road has fallen in so as to be impassable for wagons of any size or kind.

We have been out to see our cows, calves and high-bred steers running on our stock ranch near Deer Creek, where we found things just as we expected, viz, plenty of country, grass, somewhat dry, and an abundance of water. Cows are doing well, calves kicking up with their hind paws and the steers ready for a fight or anything else that comes along.

Mr. Smith of San Francisco, who has been sojourning for several weeks at Seymour, is on a visit to the Capital of Arizona and is much pleased with our town. He thinks the Central Arizona Mining Co.'s mill at Seymour will commence work about the 20th of July and believes it will prove a grand success.

A. H. Peoples and Uncle Jimmy Coughran two of Arizona's best citizens, are in town from Wickburg, which is just now a thriving place owing to the fact that formidable reduction works are being put up near that town, for the reduction of the ores from the wonderful old Volcano.

Mr. A. H. Peoples, who dwells extensively in stock, informs us that a disease has broken out with the young cattle in and around Wickburg, from the effects of which they tumble over, turn their delicate little toes to the stars, and expire in a few moments. The disease seems to be an affection of the lungs.

We had a view to-day of the Atkinson Hall, at Iron Springs, which has been enlarged and fitted up for the Fourth of July celebration. Mr. Atkinson has spared no pains or expense to make the premises just what they should be for a large gathering such as will congregate there on the 10th of July of our National Independence. Let's all celebrate.

Dry parching winds continue to blow, and all nature calls for a refreshing rain.

MARRIAGE IN HIGH LIFE.—Rev. J. E. Anderson was married to Miss Sophia Hudson, at the residence of the bride's parents, in Tucson on Thursday morning, June 19th. At the same time Mr. and Mrs. Hudson celebrated their silver wedding, and Mr. Hudson his fiftieth birthday.

Mr. and Mrs. Anderson started at once on a wedding tour to the Sea Coast, which will be extended to the State of Colorado.

THANKS.—The teachers, pupils and patrons of Prescott Free Academy desire us to return thanks, and at the same time to present their compliments and congratulations to Miss Carrie Wilkins and Miss Minnie Atkinson, for taking charge of and conducting the musical portion of the present school examinations. The music, both vocal and instrumental, is mentioned in the most complimentary terms by those who attended the examinations.

Don Antonio Peres, a very intelligent Mexican, who has been in the employ of Hon. C. T. Hayden, for many years as his agent in old Mexico, etc., and who has recently been in the State of Sonora, states that the railroad magnates have no intention of making Guaymas a terminus, but have selected a better harbor at Altira Bay, where the river Culiacan enters the Gulf, for a terminal. He states that the harbor is well protected and that the water is 60 feet deep at low tide.

H. G. Howe, the architect and civil engineer, who has been employed by Treadwell & Co., surveying the country from about eight miles above Wickburg to the Volcano mine, with a view of taking water to said mine, came in the stage this forenoon and informs us that water will run to the Volcano from a distance of about eight miles north of Wickburg without any artificial work in the way of constructing force pumps or otherwise.

Nothing new in regard to the Wheatland affair, except that Ida Dunn has recovered so as to be able to talk, and has no recollection of anything that occurred after she went to bed, until she found herself, as she supposed, recovering from a severe spell of sickness. She remembers the negro, Williams, asking her for a drink of water in the afternoon and she handed him a dipper and told him to help himself at the well. The detectives are not working in harmony.

PRESCOTT FREE ACADEMY.—Written examinations in the Higher Department of Prescott Free Academy were completed this a. m., with an examination in Algebra, Grammar and Physiology. We have examined a number of the papers, and pronounce them models of neatness and accuracy.

The rapid advancement of the pupils of our schools, as shown by the examinations, can but reflect credit upon the Principal, M. H. Sherman and his able corps of assistants, Miss Sherman and Miss Keelover. During the past three months, three of the pupils of the Higher Department have gone before the County Board of Examiners and received certificates of qualification to teach. Of these, Miss Ida Burnett has made a grand success as a teacher at Walnut Creek, being already employed for a second term. Truly Prescott should be proud of her schools.

THURSDAY

F. L. Brill's four horse team, heavily laden with potatoes, etc., arrived yesterday.

Woman—the morning star of our youth, the day star of our manhood, the evening star of our age. Heaven bless our stars.

Dr. E. P. Ryder, the dentist, left yesterday on a professional tour throughout the southern country. He will return in a few weeks.

Mr. Brizee of Kirkland Valley brought to market last evening about one hundred and fifty pounds of nice fresh butter for which he found sale.

Edward S. Stokes has recently sold to the Columbia Consolidated Gold and Silver Mining Company all of his right, title and interest in the Mountain Laurel mine situated in Hope district, a few miles from Mountain Park. The price received was \$65,000.

Hon. Benj. Morgan, a ready speaker, has been invited to deliver the 4th of July oration at Tucson. From what we know of Mr. Morgan's ability as an orator, we can say that the people of Tucson will be highly entertained.

The school children are to have their dancing party this evening, when it is expected that parents and friends will be in attendance with the little ones and make the affair pleasant, long to be remembered by those in whose interest it is given.

C. P. Stanton, who has been in Prescott during the past few days, went home to Antelope, where he lives a secluded life, and busies himself corresponding to the Herald and other leading journals throughout the United States. He went out this morning.

Tombstone District in Pima county has commenced to turn out bullion. The first shipment from a five stamp mill, seven days run amounted to \$18,000 and those well posted with the mine and mill think that the monthly average from the mine will be about \$40,000.

BONDS FORFEITED.—Nicanora Rodriguez, who gave bonds in the sum of \$1000, with F. W. Williams and James Bright as said bondsman, to be in attendance when wanted, at this time term of the Court, failing to comply with the stipulations therein set forth, his bonds were by the Judge declared forfeited.

When, outraged nature succumbs, and the worn out women drop on the track, exhausted, amid the applause of the assembled multitude, one man alone will be melancholy. That man is the funny Chronicle reporter, whose classical misquotations and guardedly ambiguous jokes daily convulse us with laughter. He will have to seek pastures new for his pegasus till he has recovered, and a new vent for his leer frolic.

Mr. Eoin Stanley, who resides at Springerville, Apache County, is in town. From Mr. S., we learn that the people of the young county, which has just had its first election for county officers, are not at all pleased with the high-handed frontier rule, as one or two rotting precincts. So soon as a remedy can be established in Apache County, a remedy may be applied and fraud at the polls stopped.

BEAUTIFUL NIGHTS.—No one can gaze at our climate in any season of the year, and we think all should be delighted with our present weather, not too cold, but just right to give the weary but little trouble in passing away the few hours that intervene between the going down and coming up of old Sol, in which to embrace Morpheus, the God of dreams.

BIG YIELD.—The Tiger Company, under the management of Superintendent Helm started their new mill and run it parts of several days on second class ore from the Tiger mine and cleared up about \$14,000. The mill was experimenting and testing the machinery preparatory to starting up on first class ores, and we consider the result more than a success. When the mill gets fairly under headway it is safe to estimate the proceeds daily, at \$2,000.

The Grand Jury concluded their labors and were dismissed this afternoon.

Arthur Brizee a young lad of 9 summers and son of H. W. Brizee of Kirkland Valley, is one of the best swimmers in Arizona. Such boys are not found every day.

We noticed a paper in circulation this afternoon asking for the pardon of Chas. E. Blackburn. The document had quite a number of signatures. Signatures, for a pardon are more easily secured than those for donating grand cash for any charitable purpose.

J. S. Hunter, who is one of the most competent operators on the Military telegraph line, has been out for some time putting wires in proper shape, and informs us that the lightning is on a sure foundation between Prescott and Phoenix.

California flour, which is superior to anything made in Southern Arizona, is now sold in the Tucson market at a less figure than what it can be manufactured for from native grown wheat. Good-bye to the valley of the Cross of the Saint as a lucrative place in which to cultivate breadstuffs. The naughty railroad did it.

Harry Hudson, indicted for burglarizing the saloon of Mr. H. B. Smith, was brought into court this morning for trial. A jury was empaneled to try the cause. LATER.—The case went to the jury and they returned a verdict of guilty, charged in the indictment after having deliberated one minute.

Hon. John H. Behan, one of the best members in the Tenth Legislative Assembly, and to whom Yavapai county is indebted for many noble acts, is, we are sorry to state, somewhat under the weather. We hope he will soon recover health, strength, etc. Behan is true blue and sticks to his friends better than they do to him.

J. C. Morton, who has been employed at the Hackberry mill, refining, assaying, smelting, etc., has gone out to the Tiger to take a look at the camp. He is of the opinion that with a little roaster, with the working of which he is familiar, there should be no difficulty in colorizing any ore, however refractory, and as he has made the treatment of rebellious ore a study, one object in going to the Tiger is to inform himself as to the character of the ore and the difficulty experienced in roasting it.

THE BURST ROAD.—The stage from Alexandria came in last evening notwithstanding the road was burned out between Police Station and Turkey Creek. Mr. Mulmoven informed us that the road is in a horrible condition, the logs have been burned out on the lower side of the grade in many places, allowing the road bed to crumble down in such a way as to make it necessary to unhitch his team from the stage and take it over by hand. It will require the expenditure of five or six hundred dollars before the road can again be traveled by teams.

NO BETTER.—Ed. Scholey, who lives at old Camp Huapai, and who is afflicted with paralysis, which came upon him two years ago, still lingers along in an entirely helpless condition. Jim Kosborgh, who drives the Mohave mail wagon, informs us that Ed. grows feebler from month to month, and his mind is gradually failing so that it is with difficulty that he can recognize even his most intimate friends at times. Mrs. S., is constant in her attendance upon her unfortunate husband, watching and waiting upon him as tenderly and carefully as though he were a child. Ed. Scholey is one of Yavapai's best men, and his affliction is a matter of general and sincere regret.

CHILDREN'S PARTY.—The "little folks" of Prescott, who are almost as numerous as grasshoppers on a Kansas farm, were treated by parents and friends, to a dancing party and lunch, last evening at the City Hall. The little boys and Misses, with a mixture of those who are not so little, assembled in full force at 8 o'clock and from that time until half past ten, kept time to the merry strains of music by the Hudson Bros. band, when they formed into a hundred couples and marched into the long dining room adjoining the dancing hall, where they made themselves familiar with the very many nice and sweet things provided for the occasion. After the Children had been served refreshments the grown people sampled the pies, cakes, and candy, after which they returned to the dancing apartment and kept the ball rolling until 12 o'clock, when the young guests escorted their ladies home and concluded that they had indulged in terpsichorean feats sufficient to satisfy their desires until they reassemble again on the coming glorious Fourth. The party last evening was one of the largest and pleasantest that has ever been given in Prescott and will long be remembered by those for whom it was gotten up.

THE WHEATLAND MYSTERY.—Little of interest has transpired in regard to the Wheatland mystery. Sheriff McCoy and Detective Gay had a lengthy interview with Ida Dunn on Saturday. Core Henderson retired first on the night of the outrage, and Ida Dunn says she is positive she put out the light. Ida knows of no one who could have committed the deed. Core is still unaware of the cause of her injuries. Both young ladies are improving rapidly. All parties in custody charged with a knowledge of the affair have been released. Miss Dunn will be removed to Wheatland to-day. The officers are urged to make arrests, and as they are waiting to a realizing sense of their duty, important measures will be taken.—S. F. Post.

The grand jury found twelve true bills as follows:

Two for murder, one for burglary, one for robbery, two for grand larceny, two for embezzlement, two for assault, and two for receiving stolen property. The grand jury examined into the condition of the school fund and found it safely kept and properly accounted for, amounting to \$3,111.69. They also made some other reports and especially complimented the county Treasurer and District Attorney for the very satisfactory shape in which they found their respective offices kept.

Services in West Prescott, next Sunday as follows: Sabbath School - 10 1/2 a. m. Preaching - 11 a. m. Praise Meeting - 7 1/2 p. m. Preaching - 8 p. m. Subject in the morning: "Family Prayer." Evening: "Introductory lecture on the Divine Authority of the Holy scriptures."

The Territory of Utah has about 35,000 Sunday school children, or more than all the rest of the Territories in the Union combined, and more than three States, two Western and one Southern.

Elsewhere we publish the programme for the celebration at the Iron Spring Station on the 4th. People from the Country are invited to attend without further invitation. A grand time and a merry one is expected.

James Stewart is again in town. Mr. S. was on the stage recently robbed near Phoenix, and informs us that a party of four were interested in the robbery.

The United States Grand Jury met this forenoon and after examining into several matters adjourned until to-morrow.

Harry Hudson was this morning sentenced to four years hard labor in the penitentiary at Yuma.

HOME INDUSTRY!

Home Industry! Home Industry!

It is now nearly two years, since I first landed at Prescott, with the intention of starting an exclusively Tobacco House, and although every store in Prescott kept Tobacco and Cigars, I was not discouraged thereby, but launched my new enterprise.

THE CAPITAL TOBACCO HOUSE.

as one of the mercantile ventures of the town, knowing full well that my long experience in this line of business would ultimately triumph, and with what success, there is hardly any need of stating here. Suffice it to say, that I was not only successful, but found sufficient encouragement to further extend my enterprise by adding a

MANUFACTURING DEPARTMENT.

With this end in view, I visited San Francisco, and procured the labor and machinery necessary, bought my leaf from the largest houses of Chicago, New York and San Francisco, and on my return, as soon as all the material arrived here, my

FACTORY

was started and is now in full operation. There were most potent reasons why my first venture to start an exclusively Tobacco House in Prescott proved a success, among them were my 15 years experience in this line of business; handling Tobacco and Cigars only, and buying them for cash, in larger quantities than the mercantile houses competing with me. I gave better inducement to the trade and handling large quantities of goods in my line, I turned my goods faster, and consequently they were fresher.

Now as to my second venture: Although I have but manufactured 12,000 of my own make of Cigars, since I first started my Factory, I can feel already, that the public is appreciating my efforts to supply them with a cigar that is superior to any imported, for the reasons, that I use the same tobacco that is worked into an imported cigar, and by covering the tobacco on the spot, I furnish an article that is far superior both in taste and flavor, than any imported cigar. For the reason that no cigar can retain its flavor in coming to Arizona, on account of being on the road so long in this dry atmosphere.

I will now call the attention of all Saloon keepers, station keepers, hotel men, and dealers in general merchandise, to the fact that I can supply them with a home made cigar that is a better article, and at a less price than any San Francisco house can afford to do, for the reason that I am here under a small expense and employ no drummers like the San Francisco houses do, at an average expense of from \$30 to \$40 per day, which of course is levied on the cigars you buy, and makes them so much dearer than I can afford to supply the trade at.

In addition to the above reasons why it would be advantageous for the trade to patronize Home Industry, there are other advantages which I will now enumerate: By supplying yourself from my factory you need not buy so large a quantity as you would from a distant market, for the reason that you can be supplied at short notice; hence you will always have a fresh article and one that retains its fresh taste and flavor, and right here is where one of the principal advantages comes in purchasing a

HOME MADE CIGAR.

Where the trade wishes to order them in small quantities it would be a very quick and cheap way of transportation to order them by mail, 100 cigars by mail to any part of the Territory costing only 33 cents.

In addition to the above I would call the attention of the trade to my large stock of manufactured Plug and Smoking Tobacco and Smokers' Articles, which I will supply at 15 per cent less than any other house in the Territory.

I extend an invitation to the trade to visit my factory, should occasion call them to Prescott, and subscribe myself,

Respectfully, J. HENNING.

Prescott, June 5th, 1879.

FOURTH OF JULY!

A Grand PICNIC AND BALL!

IRON SPRINGS.

Reading of the Declaration. Orations, Music, Statutes, etc., etc., etc.

12th INFANTRY BAND

Has been engaged for the day and evening.

Hon. Gideon J. Tucker

Will read the Declaration of Independence

Chas. B. Rush Will Deliver the Oration.

The band will play in Prescott, on the Plaza, in front of the Court House, from 9 till 10 o'clock, and then start for the Springs. A general invitation is extended to all those who wish to attend the Picnic, to be at attendance at that hour.

Tickets for the Picnic, entrance to the Grounds, 50 cts. Ladies Free.

Tickets for the Grand Ball, including Supper, \$3.00

All are expected to supply themselves with lunch for the Picnic. Mr. Atkinson, at the Springs, has spared no expense to make it a success and the Committee assure a good time to those who attend.

Carriages will be on hand at the Plaza in sufficient number to accommodate the Public.

COMMITTEE.

H. H. CARTER, F. C. AINSWORTH, C. W. BRAY, G. A. DAVIS, J. W. BRADSHAW, G. A. REAY, J. E. FISHER, E. L. KNOTTER, C. B. REYNOLDS, G. A. BARNHART, G. W. KINOSBURY.
